Operations Are Televised

ANTIC CITY, N. J., June 6.—Four patients got operations today because of a picture of a patient at work on them to be shown through the air via color television.

The first time that a color operation had been telecast was by a distance of 50 miles.

The first patient, suffering from an acting-up appendix, was taken into the operating room at the city hospital shortly after 9 a. m. Half a mile away, a hundred doctors saw the operation—and in natural color.

The second patient was suffering from an overactive thyroid gland. He underwent a complete operation of his thyroid gland—compared to a "governor" on an automobile engine prevents the motor from going away with itself.

A third patient underwent operation for ulcers in his stomach, and the fourth had a removed from his lung. A blood is "spilled" in each operation.

Two inmates of the penal farm escaped Sunday evening about 6 o'clock, the state police at Putnamville reported Monday morning.

The missing prisoners are Charles Hess, 44, sentenced from Marion county for burglary, and Joseph Griffin, 33, sentenced from Lake county also on a burglary charge. Police said Hess or originally from New York state and Griffin from Chicago.

Supt. Ellis said both would have completed their terms in about six months but they were wanted in other states for other crimes. He said Hess was wanted in Cincinnati.

Hess and Griffin worked in the farm kitchen and had "limited privileges," he said. They waited until other prisoners left the dining room last night and fled into the prison chapel for a Sunday night movie.

While most of the lights were out and guards were concentrated on the chapel, the two men slipped into a compound, climbed a high wire fence and fled, Ellis said.

They were not missed until a "bed check" about 9 p. m.

Three Killed By Gun-Crazy Thug

CHICAGO, June 6.—(UP)—"Tough" Tommy Holden, a gun-crazy 52-year-old former beer bootlegger and train robber released recently from Alcatraz, was sought today for killing his wife and two other persons.

Police picked up scores of Holden's underworld sidekicks in their search for the thug, known as a "tough character who knows how to use a gun."

Under questioning, one ex-convict, Daniel J. McGrath, admitted that he and Holden committed three robberies in the last several months.

In a drunken rage during a family argument yesterday, Holden shot and killed his wife, Lillian, 36, and his two brothers-in-law, John Archer, 28, and Ray Griffin, 30.

He also critically wounded Griffin's wife, Alva, 32, blasting her in the face and abdomen.

The shooting followed a drinking party celebrating the birthday of Ray Brady, Mrs. Holden's brother. The party was attended by Holden, Brady, Brady's mother, May, Mr. and Mrs. Roy Redmon and all the dead and wounded except Archer.

The celebration wound up in a southside saloon where Holden quarreled because his wife wanted to go home. En route, he hit her with a shoe.

At home, Holden began beating his wife, Griffin, his wife, and Archer, went to her aid.

Holden opened fire, emptying his pistol. Then he ran out of the house and disappeared.

EXTRA!

WASHINGTON, June 6 (UP)—The U. S. Court of Appeals today upheld the contempt of court conviction and \$1,420,000 fine against John L. Lewis and his United Mine Workers Union for failing to call off the 1948 coal strike.

The soft coal walkout began March 12, 1948, in a dispute over the Miners' Pension Fund demands. The government obtained a temporary restraining order directing Lewis and the Union to order the miners back to work.

Lewis ignored the order, however, and the miners remained out until April 12, when he notified the mth that their pension demands had been satisfied.

NEW YORK, June 6.—(INS)—Three hundred Communist demonstrators picketed the U. S. federal courthouse in New York today in protest against the jailing of three defendants in the Communist conspiracy trial.

The demonstration came an hour before the trial resumed. Object of the picketing was Federal Judge Harold R. Medina, who ordered John W. Gates, Daily Worker editor, to jail for 30 days for refusal to answer questions put to him under cross-examination.

WASHINGTON, June 6. (INS)—Federal Judge Albert L. Reeves today continued until tomorrow his postponement of the Judith Coplon spy trial at the request of both the defense and prosecution.

PARIS, June 6.—(INS)—Soviet Foreign Minister Vishinsky circulated a new set of stiff proposals regarding four-power control of Berlin today and there seemed to be little chance of western acceptance.

Authoritative sources revealed Vishinsky's step after the three western delegates met privately prior to the third secret Big Four session.

His proposals reaffirm Soviet insistence that the four-power military Kommandatura must exercise wide authority over administrative functions of the Berlin city government. He also insists upon the unanimity rule on all Kommandatura decisions, enabling Russia to retain veto power.

INDIANAPOLIS, June 6.—(INS)—Governor Henry F. Schriker today struck back at critics who have charged the Democratic state administration with fostering a beer-and-politics lineup.

The governor sent a telegram to Don Money, of the Irvington Republican Club, who defied him to discuss the issue at a meeting tonight saying he had a previous commitment, but adding:

"However, if present, I would strongly oppose the theory, now advanced in certain quarters that the way to take liquor and beer out of politics is to give one political party a complete monopoly of the business. Both major parties have supported this theory in the past and both have been wrong."

WASHINGTON, June 6. (INS)—Sen. Taft (R) Ohio, predicted today that the administration may "weaken" further in its attempts to replace the Taft-Hartley Law with its own labor bill.

ATLANTIC PACT ACTION URGED BY MARSHALL

APPEAL BRINGS PROMISE
OF SPEEDY APPROVAL
BY SENATE

BULLETIN!

The Senate Foreign Relations Committee today approved the text of its report to the Senate on the North Atlantic Treaty.

The action was informal. An official vote recommending ratification of the pact is to be taken by the committee later in the day.

WASHINGTON, June 6.—(UP) Gen. George C. Marshall's appeal for prompt action on the Atlantic Pact today brought a promise of speedy approval from the Senate Foreign Relations Committee.

The former secretary of State told a banquet in his honor last night that ratification of the Pact is necessary to back up his European Recovery Plan and assure "continuing Peace and Prosperity."

Chairman Tom Connally, D., said he expects his Foreign Relations Committee to give the Defense Treaty unanimous approval, perhaps by tomorrow. The full Senate may consider ratification of the Pact later this month.

Marshall told his audience that a "feeling of security is essential to the future of Europe and the World."

"Improved economy helps tremendously to that end, but in the light of conditions as they exist today, that alone is not enough," he said.

"I feel that the prompt ratification of that Pact is very important to the World, as is a continued and increasing co-operation on the part of all our countries everything that Pact involves, as well as in the original recovery program," Marshall said.

Among those who paid tribute to the distinguished soldier-Diplomat were President Truman, Ambassadors of the European nations receiving Recovery aid under the Marshall Plan, top ranking government officials and congressional leaders. The occasion was the second anniversary of Marshall's Harvard University speech in which he proposed the plan to halt communism.

Traffic Deaths Show Increase

INDIANAPOLIS, June 6.—(INS)—A 10-per cent increase in traffic fatalities clouded Indiana's highway safety program today.

Arthur M. Thurston, state police superintendent, reported the state's deaths in the first four months of 1949 placed Indiana in eighth position ahead of 40 other states in the number of persons killed.

Deaths in the nation, however, showed only a three per cent increase.

Thurston warned: "Danger on the highways will be at its peak in the approaching months. Summer weather and the vacation season will lead to increased traffic on the streets and highways and motorists will need to follow all safety measures to avoid accidents."

Traffic accidents in the first four months of 1949 took 309 lives. Last year 281 persons died on Hoosier streets and highways during four-month period.

The largest number of deaths this year occurred in April. Eighty persons, an increase of 25 per cent over 1948, were killed. Provisional tabulations for May, 1949, show 85 persons fatally injured. When a final count is available, this figure probably will equal or slightly exceed the

88 fatalities recorded in May, 1948.

Urban deaths, totaling 109, increased 15 per cent over last year in the first four months. Two hundred persons were killed in rural areas, representing an increase of eight per cent over a year ago.

Perlow, who had been a member of the union for 26 years, said he preferred to resign from the Communist party rather than to lose his union office.

FISHIN' FUN

It was a pleasure today to renew our acquaintance with Henry Cox, former DePauw University student and fisherman friend. Henry is the fellow we mentioned the year before last, who caught the legal limit of Bass five consecutive days at the cement plant pond. He had the knack of knowing what the fish were feeding on, and proceeded to furnish them with an artificial lure that resembled that particular food. He is just as good with a fly rod as the casting rod, and we have seen him catch any number of fish with either. Hank is now a student at the University of Missouri, and since his school is out for the summer, he couldn't resist coming home for a few days of the Putnam County fishing.

WORCESTER, Mass., June 6.—(UP)—An ex-GI who has been receiving psychiatric treatment faced arraignment today for the rape-slating of a 9-year-old baby sitter whose nearly nude body was found in his attic.

John C. McCann, 23-year-old former combat infantryman, allegedly confessed yesterday to smothering pretty Anne Marie Magnusson for fear she would reveal he raped her.

"I was afraid she would squeal," police quoted the war veteran as saying when questioned about the slaying of the girl whose body was found Saturday night stuffed in a cedar chest in the attic.

INTEREST INCREASES

LAFAYETTE, Ind., June 6.—(INS)—Interest in shorter season hybrid corn has been increased due to delays in planting because of wet ground and flooded fields.

Purdue University agronomists say farmers generally plant full season hybrids until late May but prefer earlier maturing strains for June planting.

Agonomists recommend Indiana 200 and 400 series for planting until mid-June in northern, and to late June, in southern Hoosier counties where emergency conditions force delayed seeding.

Kills Self In Texas Love Nest

GALVESTON, Tex., June 6.—(UP)—A wealthy 27 year old divorcee said today that her male companion in a swank tourist cabin here shot himself to death three hours after he heard a sermon declaiming against "illicit love."

Police said the couple's luxurious quarters at the Jack Tar Tourist Court near the Gulf of Mexico was "littered with gin and scotch bottles."

Bottles containing barbitol and anytol, both drugs, also were found.

Mrs. Martha Pfeiffer, divorced wife of a wealthy contractor at Crystal Lake, Ill., was found in the room with the body of Robert Emmet Benjamin, 33, also of Crystal Lake, lying nearby. Benjamin, a hero of World War II, had been shot in the heart.

The couple had registered at the court a week ago as "Robert E. Benjamin and wife," authorities said. Mrs. Pfeiffer has a five year old daughter by her husband. Benjamin is married and had two children.

CALIPH WEDS

TETUAN, Spanish-Morocco, June 6.—(UP)—The Caliph of Spanish-Morocco got his first glimpse of his new bride today and discovered he had married an olive-skinned beauty of 22.

The Caliph, Muley Hasan Ben Elmechdi Ben Ismail, now over 40, wed Princess Lal-La Fatima Zehra Bentz Mueily Abd-El-Aziz shortly before midnight last night.

By custom, no male outside the

princess' immediate family had ever glimpsed her without the traditional veil. His imperial majesty got his first look after he married her.

It was the first marriage for the Caliph who is the father of a 20-year-old son by his favorite slave. His bride is the daughter of the late Sultan. They were united in a Moslem ceremony.

The wedding festivities were unrivalled here in years.

The princess arrived from Tan-

gier in an ornate carriage hauled by four high-stepping Arab horses. She proceeded to a camp on the outskirts of the city, where she was bathed, anointed with oil, doused with perfume and dressed in a flowing tunic with a gold belt.

GUNMEN HUNTED

MANDAN, N. D., June 6.—(UP)—Three desperate gunmen who killed a Minnesota police-

man apparently fled into South Dakota today after smashing through a roadblock with another officer they kidnapped.

Police at McIntosh, S. D., reported by telephone late last night that a 1949 Hudson sedan crashed through barricades thrown up over one of two roads leading south from the Mandan area.

McIntosh is only two miles south of the North Dakota state line, 85 miles south of here.

The car was believed to contain the desperadoes, Carl H. Blum, 26, his brother, Arthur, 37, and Allen Hartman, 26, all of St. Paul. In addition to the policeman they kidnapped, George Senn, 25, of Mandan.

The gunmen killed policeman Fred Babcock, Jr., 26, during a burglary at Richfield, Minn., Saturday night. An accomplice was captured.

They fled here, abducted Senn, and drove away in his patrol car early yesterday. They apparently stole the Hudson later in the day.

Hundreds of officers, FBI men and possemen were flung out across the plains country in one of the most widespread pursuits since the days of the wild west.

A dozen planes cruised over highways hunting for the escape car.

Several times yesterday, police radio listeners heard the desperadoes' voices on the air as they
